ROC Adds 3 to Most Wanted Unlicensed Entity List

PHOENIX – The Arizona Registrar of Contractors adds 3 unlicensed individuals to its Most Wanted Unlicensed Entity List.

The move to update and add to the Most Wanted Unlicensed Entity list comes after multiple individuals on the list were arrested by local law enforcement. Added to the list are Michael R. Peterson, 36 of Phoenix, Jason Lee Heilbrun, 42 of Chandler, and Robert Green, 36 of Phoenix.

Michael R. Peterson, 36 years old, dba Peterson Millwork and Design LLC

Warrant: Maricopa County

Work Locations: Mesa/Scottsdale

Wanted for: Felony Theft

Michael R. Peterson works under the name Peterson Millwork and Design, LLC and takes money up-front while illegally contracting without a license. He then fails to produce paid-for materials and fails to perform any work. From 2014 to 2016, the ROC received three complaints against Peterson. In the complaint submitted for prosecution, he is accused of taking \$6,500 without performing any work.

Jason Lee Heilbrun, 42 years old, dba JAGD Interiors LLC

Warrant: Maricopa County

Work Locations: Fountain Hills/Phoenix

Wanted for: Fraudulent Schemes, Theft

Heilbrun was a licensed contractor until 2012. He now operates as an unlicensed entity taking large amounts of money up-front and between 2015 and 2016, the ROC received three complaints against Heilbrun for contract amounts totaling \$52,378.84. Of those contract amounts, homeowners paid \$29,800 and Heilbrun abandoned each of the jobs.

Robert Green, 36 years old, dba Desertscape Designs LLC

Warrant: Maricopa County

Work Locations: Gilbert/Mesa/Goodyear/Tempe

Wanted for: Fraudulent Schemes

Robert Green is well known to the ROC. From 2014 to 2016, the Agency received and investigated six complaints against Green. According to the complaints, homeowners assumed he was licensed based on his professional-looking website and gave him a combined \$87,230. In each of the complaints, he collected money and performed little to no work before disappearing.

Individuals on the AZ ROC's Most Wanted Unlicensed Entity list represent those who have active warrants for their arrest, typically related to allegations of contracting without a license. They also may be placed on the list due to the egregious nature of the work performed or amounts of money taken from their victims without performing any work.

As always, AZ ROC reminds the public, only professional law enforcement personnel should attempt to apprehend these individuals.

If you have any information regarding these individuals, please contact local law enforcement.
